Hello Sharon,

I wanted to follow up on my prior email when you have a moment. I understand some of those items may take time to gather.

Also, thank you again for mailing the association documents to me. I took some time to organize and combine the scanned pages into clean electronic PDF files for easier storage and future reference. I also separately scanned the bylaws and the Declaration of Building Use Restrictions so they are available as individual digital documents.

If it would be helpful, I'd be happy to share these electronic copies with you so the Association has them available in digital form.

Please also let me know if there is a preferred process for members to request records or receive association information during the year.

Thank you again for your time and service.

Best regards,  
John Langlois
