Sharon,

Attached is a follow-up letter regarding my prior requests for association records and related governance documentation.

As noted in the letter, partial responses have been provided; however, significant records relating to governance authority, voting procedures, board actions, enforcement actions, communications practices, and financial administration remain outstanding.

I am sending this letter to the association P.O. Box so the request is formally documented and directed to the Board of Directors.

To the extent available, requested records may be provided electronically by email attachment.

Please let me know if you have any questions regarding the request.

Thank you,

John Langlois
